

# jaama

Jaama has brought for the first time fleet, leasing and rental software together with practical health and safety advice in one innovative solution.

Our multi award winning systems enable fleet decision makers to monitor, measure, compare and contrast the performance of drivers and vehicles more effectively, control spiralling costs and proactively manage duty of care.

We offer a range of fully integrated systems to meet the management requirements of:

- Car, LCV, HGV and plant operators
- Hire and daily rental companies
- Fleet management companies
- Contract hire companies
- Leasing companies
