

Key 2 vehicle management

Provides clear, precise and meaningful information

View all vehicle events, what's due and when

Vehicle costings at a glance

visibly the best system by miles

Key 2 vehicle management is the complete management tool for Police forces, driving strategic improvements in the management of their vehicles and workshops. Managing a complex vehicle fleet has never been easier. Jaama's leading edge software technology can collect data by seamlessly integrating with other systems and automating previously manual activities.

Jaama's management system incorporates the administration of workshops, vehicles, commissioning, ghost plates and all vehicle related costs.
